## WELCOME

...to the 20th edition of the Rainbow List. We thank all the organizations who helped pay for it through their advertising.

As we go to press with this edition of the Rainbow List, we are still mourning the loss of Matt Shepard, a gay student who was beaten and left hanging on a fence near Laramie, Wyoming.

Matt's death deeply affected me. I grew up in Laramie and when I began to realize my gayness, I began to fear the same violence that became a reality for Matt. That fear, for my family and friends as well as myself, eventually drove me from my home in Laramie. It is that fear that has driven me to create this directory.

The sad fact is Laramie is still only moderately homophobic as communities go - there are far more homophobic areas of our country, especially in the south. The violence against Matt was an extreme case and should be a reminder that people across the country are attacked every day for their sexual orientation.

We can all do a little more to stop the violence by continuing to let people know discrimination and prejudice are not acceptable behavior.

I hope you enjoy this edition of our directory. Be sure to thank our advertisers for supporting another edition. And when you play, play safe!

Ric Turley  
Publisher

**There is still no cure for AIDS.**

Infection is easily avoided by avoiding unsafe sex. Unsafe sex is when certain body fluids (semen, vaginal fluids, feces and blood) get from one person into the body of another.

Protecting yourself from sexually transmitted diseases is your responsibility. Don't risk your life on the word of someone else, no matter how cute he or she is. Protect yourself and only play safely!

## Our Advertisers Make It Possible!!!

The businesses and organizations of our community provide the financial foundation for the lesbian/gay activists and politicians to fight for our rights. And the stronger those businesses become, the stronger our community becomes.

**Support our Advertisers!!!**
